Amendment U.S. Serial No. 10/042,283 Page 2

In the Specification

At page 6, please amend the paragraph beginning on <u>line 1</u> as follows:

Other components with beneficial effects in reducing the side effects of alcohol consumption that may be included in the composition of the invention include rehydrating agents, agents capable of reducing alcohol dependency, such as olanzapine, fatigue relieving agents, such as <u>L-methionie L-methionine</u> or a biologically acceptable salt thereof, or a biologically acceptable magnesium salt, folic acid, vitamin B12 or mixture thereof.
